SEP 24 2015

Mr. Mark Hague
Acting Regional Administrator
U. S. Environmental Protection Agency
11201 Renner Blvd.
Lenexa, KS 66219

Dear Mr. Hague:

Please find enclosed the 2015 Monitoring Network Plan.

The 2015 Monitoring Network Plan fulfills the requirements of 40 CFR 58.10 (a) (1) for annual submittal of a plan to provide information on current SLAMS, other ambient air monitoring, and any proposed network changes for the upcoming year. The plan is required to be made available for public inspection at least 30 days prior to submission to the Environmental Protection Agency (EPA) and accordingly, was made available on our website on June 15, 2015.

Public comments that were received as part of the 30-day public inspection period of this plan were from the Washington University School of Law on behalf of the Sierra Club and the EPA Region VII through the Missouri Department of Natural Resources email address cleanair@dnr.mo.gov.

Hard copies of these comments are enclosed and we will make these comments available to the EPA electronically. No changes to the 2015 Monitoring Network Plan have been made based on any comments received. Our responses to these comments are enclosed. We, however, have made non-substantive corrections to Figure 2.3 and the network table, Appendix 1. These corrections are reflected in Appendix 6 of this Plan.

If you have questions regarding this letter or the enclosures, please contact Mr. Stephen Hall with the Department's Air Pollution Control Program at P.O. Box 176, Jefferson City, Missouri 65102 or by telephone at (573) 751-8406. Thank you.

Sincerely,

AIR POLLUTION CONTROL PROGRAM

Kyra L. Moore
Director
